Yes, respect in any aspect, how about a different style?
Come now...
See I'm just a grain of sand
Living life as I overstand
Roots my nation, organization,
We break through this isolation
I&I I&I I&I I&I inna special mode
Life has no breaks, to much mistakes
Dem can't stop the brain food
Come now, come now, don't let them set up in ya plan
Come now, come now, support resistance, natty nation
Come now, come now, don't let them set up in ya plan
Don't be a witness to this mental murderation
Of the entire population
See I'm just a grain of sand
Living life as I overstand
Roots my nation, organization,
We break through this isolation
I&I I&I I&I I&I inna special mode
Life has no breaks, to much mistakes
Dem can't stop the brain food

Come now, come now, don't let them set up in ya plan
Come now, come now, support resistance, natty nation
Come now, come now, don't let them set up in ya plan
Don't be a witness to this mental murderation
Come now!
Need some conversation, killers working on vacation
Life has lost it's worth in this evil meditation
Spoke up to the gods, earn new knowledge for a skill
People lost their will, exposed themselves to the thrill
I&I I&I I&I I&I inna different mode
Life has no breaks, to much mistakes
Dem can't stop the brain food
Come now, come now, don't let them set up in ya plan
Come now, come now, support resistance, natty nation
Come now, come now, don't let them set up in ya plan
Don't be a witness to this mental murderation
