"Sun"

That day will come
Under the sun
We'll spread our love
Redemption begun
Under a gun
Or under the sun
Thin in between the dog & god
No one to turn
No one really trusts me
I don't even trust myself
Sun trough the rain
Inside me pain
Spark of the night into burned eyes
Inside me grow
Conquering all
Thin in between the dog & god
No one to turn
No one really trusts me
I don't even trust myself
Cry out mother seek out you son
Inside them rusty live through their life
