"War Control"

Visit "[War Control](#)" on MotoLyrics.com

Since the ages
This madness is on
We are divided by horror we crawl
Just like me I know you'll never
Pull the trigger on
And wake another war
Yeah everywhere is war
War within war outside
No, we're not asking for
Yes, everywhere is

War within and war outside are taking in control
War within and war outside are taking in control
War within and war outside please re-connect me soul
War within and war outside are taking in control

How can we
Let this be?
We need love & respect,
The world of harmony
The world in peace,
It just can't exist
Poisoned minds raise your fists
And wake another war
Yeah everywhere is war
Hey president what for?
You need another

War within and war outside are taking in control
War within and war outside are taking in control
War within and war outside please re-connect me soul
War within and war outside are taking in control
