"Your Grace"

Looking in your eyes
Looking your blue lies
Try to understand
What makes this man

Stronger every day
I'm not loosing my way
Like my silence, I can't
Stand your violence

This place inside me
Is weeping for the light
Hunger is my anger
Survival's blood fight

Touch of liquid pain
Future brings the fear
This face is stonelike
Death is cold, end is near

Litl souls cry all night
Afraid of shadows
Waiting for daylight...
Litl hands are covering face
Mother, bitch,
Where is your grace?
