Verse 1.

You got it hot mama, I'm believing every word you say,
word you say, word

You say.

You hotter then the summer from your lips to your eyes
to your thighs I'm a

Fool.

Here's my heart baby take it bear in mind please don't
break it.

I admit this ain't my first time, But having you here by
my side is like my

First time butterflies.

Chorus:

She got me vulnerable

I'm letting you go, lets go so we can do this

She got me vulnerable

Thoughts in my mind I gotta take my time take my time

She got me vulnerable

I'm letting you go lets go slow.

She got me vulnerable

Got me baby vulnerble

Now baby rock, rock rock yeah.

You got miss stunner, oh you doing it babe doing girl

You got it going on, you got it baby

Leave it alone is what my heart says, but my heart wont
allow it

I'm taking a chance just to love ya, But all I ask is that
you stay true.

Chorus:

She got me vulnerable

I'm letting you go, lets go so we can do this

She got me vulnerable

Thoughts in my mind I gotta take my time take my time
She got me vulnerable
I'm letting you go lets go slow.
She got me vulnerable
Got me baby vulnerble

Rap/bridge:

I gotta let you know baby I been here before baby if this
