What gave the world to you?
Lie down and fall asleep
There is a better place to go
You're a creation of god

Deformed
What gave the world to you?
Lost soul
Lie down and fall asleep
Side show
There is a better place to go
Mourn

You're a creation of god
And all his makings are wondrous

None more so than yourself
There is a better place to go
You're a creation of god

To be remembered forever
They call you elephant man
What gave the world to you?
Lie down and fall asleep

What gave the world to you?
