It's Promoe from the Looptroop Rockers
Yeah, this shit is exclusive! Alright, yeah

I ain't heard of him, but I know he heard of me
'Cause I'm all over Germany and I'm takin' all of yer
money

I ain't mad at him, but of course he mad at me
'Cause I ain't even German, see, and he ain't leavin'
Germany

Who savas? He's a fool, sag was?
This ain't Sweden versus Germany, and it ain't no
football game
It ain't ever worth it verbally, but, fuck it, mate
Take your half-steppin' half-ass little half-diss
Stick it up your crab-ass, it could never match this
If you thinkin' you should respond to this song, forget
about it
Unless you put it on Sweden's biggest rap site I won't
hear about it
This an exclusive for rap.de
And I doubt you'll get your shit on kingsizemag.se
And even if you did, the people wouldn't understand a
word
Sorry, it's an unfair world
Because,

I ain't heard of him, but I know he heard of me
'Cause I'm all over Germany and I'm takin' all of yer
money

I ain't mad at him, but of course he mad at me
'Cause I ain't even German, see, and he ain't leavin'
Germany

Man, I'ma tell the truth, if I'm in Germany
And I hear him on the radio or I see him on the telly too
I'd turn it off, 'cause I couldn't feel it enough to even
listen
But a while ago I heard somebody said that he'd been
dissin'
So I checked this homepage to see what I was up

against
It took a whole second to see that he's another gangsta
Wanna be American so bad
But I see your American's so bad
Couldn't become the ones you idolize
So you copied the cars, the clothes, the girls and all the
other lies
The same materialism, the same sexism
But could I really be vixed with 'em?
When,

I ain't heard of him, but I know he heard of me
'Cause I'm all over Germany and I'm takin' all of yer
money
I ain't mad at him, but of course he mad at me
'Cause I ain't even German, see, and he ain't leavin'
Germany

Just 'cause you're local don't mean you have to be loco
Fuckin' with Promoe, aught to put you in a chokehold
Physically, mentally, financially, name it, you mention
me
Don't play with the big boys, you warm the bench in the
little leagues
(bitch!)
Make no mistake in identities
I'm not gonna be fucked with even though I might look
friendly
I'd love to stay and chat, but I really gotta leave
I got a world to conquer, you're stuck in Germany

I ain't heard of him, but I know he heard of me
'Cause I'm all over Germany and I'm takin' all of yer
money
I ain't mad at him, but of course he mad at me
'Cause I ain't even German, see, and he ain't leavin'
Germany

I ain't heard of him, but I know he heard of me
'Cause I'm all over Germany and I'm takin' all of yer
money
I must be hurtin' him, but he ain't hurtin' me
Scared I'll take his business, and I will most certainly
I'm out, out, uh-uh-uh-out
Rap.de, what the fuck you gon' do?
