"Bring It Down"

I can't breathe
I feel it in my brain
your head, crashing plane
i'm back, this is my way
the beginning of time
in front of my eyes
i have no control
hit the black hole
Fuck this world!
You won't bring me down! (x8)
Its reality, not a vision
blow your mind
like in a prison
call the rescue
you're high with the bass
no escape
its now in your face
I'm a maniac
you can't trust me
fuck your bitch
you are a memory
that's how we do it
gimme some space
it's what i need
to rock this place
you won't bring me down
you know we own the crown
hearts made of steel
and we can't stop to make it real
you won't bring me down
you know we own the fuckin' crown!
