...And We Thought That Nation-States Were a Bad Idea  
"Publicly subsidized! Privately profitable!" That's the  
anthem of the upper-tier (the puppeteer untouchable).  
We focus a moment, nod in approval and bury our  
head back in the bar-codes of these neo-colonials while  
our former nemesis (ah, the romance!): the nation-  
state, now plays fund-raiser for a new brand of power-  
concentrate. Try again, but now we're confused- what  
is "class-war"? Is this class war? Yes, this is class war.  
And I'm just a kid- I can't believe that I gotta worry  
about this kind of shit!

What a stupid world! Yeah, this is just beautiful...  
absolutely no regard for principle. What a stupid world.  
(We're): 1) born 2) hired 3) disposed! Where that job  
lands, everybody knows and you can tell by the smile  
on the CEO's that the environmental restraints are  
about to go. You can bet that laws will be set to ensure  
the benefit of unrestricted labor-laws (all kept in place  
by displaced government death squads). They own us.  
They produce us. They consume us. Can you fucking  
believe this? What a stupid world. Fuck this bullshit  
display of class-loyalties. The media and "our" leaders  
wrap it all up in a flag- their fucking shit-rag. hooray!
