"Fine Day"

Fine day in river heights, fine day for your skateboards
and bikes, fine day in your cute little world, fine day for
tough boys and submissive girls, a fine day to see that
the government's got the drop on you. watching
everything that you do. but you tell yourself that i
you're exempt from their stare and that rules are rules
and the system's fair and square, but with wired
phones and two-way mirrors, they've been watching
you for 20-some years, they regulate your idleness,
(get a load of this next line) you agglutinate and
acquiesce, this whole goddamn world's a fucking
mess, but it's a fine-day in river heights (whammy bar
mayhem)
