An eternal life, an eternal need  
I will live, and you will bleed  
You'll be dead, just a mailer of time  
Your pulsing river will soon be mine  
A blood flowing stream, the moon turns red  
I slake my thirst, as you join with the dead  
As you join with the dead

A stream of power  
Your blood starts to rain  
Your skin turns-white  
As I bite through your vein

A smell of blood-a smell of fear  
I rule the darkness-your end is near  
It's my doom-yeah I'm living in sin  
Time has come-let the bloodfeast begin  
A blood flowing stream, the moon turns red  
I slake my thirst, as you join with the dead  
As you join with the dead

A stream of power  
Your blood start to rain  
Your skin turns-white  
As I bite through your vein  
A stream of power  
Your blood start to rain  
Your skin turns-white  
As I bite through your vein...
