Don't open the door, do not turn the key  
If you walk through that door you will never be free  
Basing your life on the book of the fools  
Open your eyes, live a day in the truth  
This can not be real, you don't have a clue  
I can not believe that this shit can be true  
Look at yourself, you are living a lie  
Losing yourself, your religion will die!

The meaning of life can not be described by christ  
A lie has been told and with it your life has been sold

I am a hater of god!

The pure evil due, black is my heart  
I am the fire, a child from the dark  
Send them a saviour, a crown on his head  
Killed by your own, now your son is dead  
Fuck your religion, and those who believe  
You're fooling the blind, but you'll never fool me  
Promise them fortune and see what they do  
Murder and rape, they are all haling you!

The meaning of life can not be described by christ  
A lie has been told and with it your life has been sold

I am a hater of god! I am a hater of god!  
I am a hater of god! I am a hater of god!

Hate, all I feel is hatred, all I hear is lies  
When I arrive the angels in heaven will cry!

Why!

The meaning of life can not be described by christ  
A lie has been told and with it your life has been sold

I am a hater of god! I am a hater of god!  
I am a hater of god! I am a hater of god!

Fuck your religion, and those who believe

You're fooling the blind, but you're never fool me

The meaning of life can not be described by christ  
A lie has been told and with it your life has been sold

I am a hater of god! I am a hater of god!  
I am a hater of god! I am a hater of god!
