### "Total Wasteland"

Demons are dancing in my mind  
Turning everything upside-down  
Love into hate, good into evil  
My body is not my own...  
Grotesque madness, rips through my vein  
Hellish pain, taking my sanity  
Darkness surrounds me, frustration grows stronger  
I fight but the struggle is over...

A world in ruins, burned to the ground  
Total wasteland  
Nothing remains, a world turned to ash  
Total wasteland

Is there something wrong with my head  
Is there anything that I can do?  
Can this be real? can this be true?  
Seeing through the eyes of hell  
Feeling only pain and anger  
The dark is here, with demons from hell  
The light is gone, my world turns black  
The light is gone, evil's on the attack!

Demons are dancing in my mind  
Turning everything upside-down  
Love into hate, good into evil  
My body is not my own...

A world in ruins, burned to the ground  
Total wasteland  
Nothing remains, a world turned to ash  
Total wasteland
