And We Thought That Nation-States Were A Bad Idea
"Publicly subsidized! Privately profitable!" That's the
anthem of the upper-tier (the puppeteer untouchable).
We focus a moment, nod in approval and bury our
head back in the bar-codes of these neo-colonials while
our former nemesis (ah, the romance!): the nation-
state, now plays fund-raiser for a new brand of power-
concentrate. Try again, but now we're confused- what
is "class-war"? Is this class war? Yes, this is class war.
And I'm just a kid- I can't believe that I gotta worry
about this kind of shit! What a stupid world! Yeah, this
is just beautiful... absolutely no regard for principle.
What a stupid world. (We're): 1) born 2) hired 3)
disposed! Where that job lands, everybody knows and
you can tell by the smile on the CEO's that the
environmental restraints are about to go. You can bet
that laws will be set to ensure the benefit of
unrestricted labor-laws (all kept in place by displaced
government death squads). They own us. They
produce us. They consume us. Can you fucking believe
this? What a stupid world. Fuck this bullshit display of
class-loyalties. The media and "our" leaders wrap it all
up in a flag- their fucking shit-rag. hooray!
