...And We Thought That Nation-States Were a Bad Idea
"Publicly subsidized! Privately profitable!" That's the
anthem of the upper-tier (the puppeteer untouchable).
We focus a moment, nod in approval and bury our
head back in the bar-codes of these neo-colonials while
our former nemesis (ah, the romance!): the nation-
state, now plays fund-raiser for a new brand of power-
concentrate. Try again, but now we're confused- what
is "class-war"? Is this class war? Yes, this is class war.
And I'm just a kid- I can't believe that I gotta worry
about this kind of shit!

What a stupid world! Yeah, this is just beautiful...
absolutely no regard for principle. What a stupid world.
(We're): 1) born 2) hired 3) disposed! Where that job
lands, everybody knows and you can tell by the smile
on the CEO's that the environmental restraints are
about to go. You can bet that laws will be set to ensure
the benefit of unrestricted labor-laws (all kept in place
by displaced government death squads). They own us.
They produce us. They consume us. Can you fucking
believe this? What a stupid world. Fuck this bullshit
display of class-loyalties. The media and "our" leaders
wrap it all up in a flag- their fucking shit-rag. hooray!
