"Pigs Will Pay"

Thought, word and deed once sloganeered: a reaction
undefined. The battle-hymn,
the mantra of a once unfocused mind.
But as logic tempered anger,
(still inspired, but now informed),
the "pigs" we'd turned to caricature became far worse
that we'd warned. Morality enforcement based on the
interest of a state. Coerced into concordance and
threatened
into place. It's not just isolated incidents of cop-jocks
kicking ass. It's a fucking war machine protecting
the wealth of the employing class.
