This way or that way we go  
For most of us it's easier  
To watch the way they do betray  
With wait and see  
Looks on their face  
Vacant expressions replace  
What it was we stood for  
We wonder at the motion of the step  
The blow  
The big disgrace  
Now we are stocking the mold  
That they have made  
To fit like glue  
Can't help but think it's all our fault  
Can't help but wait for the lightning bolt  
Maybe we don't want to know  
That every man was bailing out  
On issues that they'd have no doubt  
With certainty, wipe from their face  
They did all they could to replace  
What it was we stood for

We wonder at the motion of the step

The blow

The big disgrace

Now we are stocking the mold

That they have made

To fit like glue

Can't help but think it's all our fault

Can't help but wait for the lightning bolt
