Stay
Stay darling, stay
Just like this, stay this way
In my arms, on my heart
May our lips never part
Give me all your sighs
Keep my love in your eyes
Let's re-live every kiss
Only stay just like this
In my arms, on my heart
Never one breath apart
The whole night through
I'll be holding you, oh so near
Let me stay and re-trace
Every look on your face
We have love, you and I
Never speak of goodbye
Darling stay
(Insturmental)
Let me stay and re-trace
Every look on your face
We have love, you and I
Never speak of goodbye
Darling stay
