Run for your fucking life!!!  
That's if you want to live  
This place ain't safe nor sane  
World destabilized by appointed police who'll make  
your loss their gain  
Off with your fucking heads and die by the sword of  
bloody ignorance  
Death and eternal pain for financial gain  
This world is insane  
I watch it all go down like a TV game with suffering so  
surreal  
Ideologues mispalce the blame  
Oh... they want a piece of you  
They want a piece of me  
One voice is all I need  
Better think twice before fucking with me  
Some say death to r hose who don't agree with us  
Well I don't agree with us!!!  
Eye for a fuckin eye in a savage world where war's the  
only choice  
All taken by force whatever the cost  
Now more lives are lost  
Minds are injected fear  
The press insincere  
This can't happen here?  
Oh, it's a brand new age with a brand new rage  
complete  
With false pretenses, four more years of wars to wage  
For the police state  
Oh, I can't wait  
From sea to shining sea they'll walk over you to get  
over on me
