If you're in,
I want out.
Fuck you all,
good bye.
Such a shame.
It's been real.
Hope you all die.
Make a break for better days.
Watch the world burning below.
Vow we're not looking to make amends.

Let them eat crow!
In search of life on status quo, so Godspeed, go!
Our Northern Lights are getting low, so Godspeed, go!
Taste the pain.
Smell the burn of the first kill.
Watched your face enjoy the ride like a pink pill.
Never tell, promise?
Don't need to know nothing but the best.
Civilization, or social unrest.
In search of life on status quo, so Godspeed, go!
Our Northern Lights are getting low, so Godspeed, go!
