"Iraqnam"

Sickened beyond our wildest imaginations.
Thoughts imprisoned and owned by the corporations.
God save their souls for leading us all into hell en
masse.
Contempt for the dead, we learn nothing from the
mistakes of the past.

Always the first to deceive, the first to believe, the last
to get something done.
Our lives are at stake, and yet you've forsaken
yourselves for the fortunate sons.

Oh, they promised they meant us no harm,
then sent us to die - IRAQNAM !!
They promised they meant you no harm !!
IRAQ fucking NAM !!

Weapons of mass deception like those of LBJ,
sold by the press into your homes so your minds will
decay.

False fucking flags flying everywhere, do you fucking
care?
Always the last to know but the first to go into harms
way,
loved ones are kept in the fucking dark all alone to
bear
the pain and the price that we pay for this fucking sham
!!
