I foresee the way it's gotta be  
my intentions are to serve you wrong  
I tried to find strength and piece of mind  
when you put me to the test, but not for long

Pressure. It's always on  
SOMetimes you gotta take the ball and run  
Power. It's all in my hands  
but what will I do with the still smokin' gun  
Feed my need to build a house of greed  
Intentions seem to prove correct  
The policy is simple the Plans all good  
to rid you of your self respect

Pressure. It's always on  
SOMetimes you gotta take the ball and run  
Power. It's all in my hands  
but what will I do with the still smokin' gun
