Despite all the pain that we've been through, my friend

We search for a sign to guide us till the end
Believe in yourself - Do what you think is right
May your kids be safe and warm into the night

The blood, the sweat, the anger and the tears

Represent all our acts of faith throughout the years

Deceit is a means in which to measure gain

Never take the name of Lord Thy God in vain
From this day on - for keeps we play vain
We lost ourselves along the way

We sow our seeds and watch them grow
Content that god will never know
And thou shalt not...
Behold - the meaningless we must protect

The tell tale signs are there in full effect
Embrace the unknown as if it was your own

Remind us before the day that we're to go
May the sun shine bright in times when you're alone

We must give praise when goodness is deserved

To share our thoughts with those who care to know
And now I lay me down to sleep
I pray the lord my soul to keep

And if I die before I wake

I pray the lord my soul to take
And thou shalt not...
