Call out to you in desperate ...  
Learning to you cause I know I need this  
Riches of grace, my heart restored and free  
The power of love in your presence  
I see the cross ... my forgiveness  
It's hopeless to stay, I need a touch from you

In your love there is healing,  
On your ...  
It's your ... a new life, you spread the light in me

In darkness of night, I know you're with me  
At least I can feel, in the valley  
I will follow you, when I cannot see

In your love there is healing,  
On your ...  
It's your ... a new life, you spread the light in me  
In your love there is healing,  
On your ...  
It's your ... a new life, you spread the light in me

I want to see, your glory  
Let your will be done  
I want to see, your glory  
Let your will be done  
I want to see your glory  
Let your will be done  
I want to see your glory

In your love there is healing,  
On your ...  
It's your ... a new life, you spread the light in me  
In your love there is healing,  
On your ...  
It's your ... a new life, you spread the light in me.
