As afraid as always  
Evolution comes crawling from the sea  
Alive with the urgency  
Like suicide x2

Convinced the grass is greener  
on dry earth.

?????  
?????  
Sneaking through the lecture hall  
They crawl across the island.

Thrown away  
????? muddied water  
Throw ?????  
?????

All the young people  
Took a Leap of faith  
In a river bend that drowns about  
as much as it saves

?????  
????? against the ?????

?????  
?????  
Understand that only dying is this colossal

Creations an escape  
To find the perfect equilibrium  
Like fossils

All the young people

took a leap of faith WOAH!  
All the young cowards  
Acting out

All the young cowards  
Acting out, for the brave

Forever hurled into the water  
Of their indifferent graves

For a million years  
Raise your glass  
We'll never answer  
Where we came from

For a million years  
Raise your glass in a cheers  
We will never answer  
Where we came from, only how we got

For a million years  
Raise your glass  
We will never answer  
Where we came from

For a million years  
Raise your glass  
Only how we got here.

Two minutes, and then the lads are in for a surprise!
