

Protest the Hero

"Palms Reads"

Visit "[Palms Reads](#)" on MotoLyrics.com

As afraid as always
Evolution comes crawling from the sea
Alive with the urgency
Like suicide x2

Convinced the grass is greener
on dry earth.

?????
?????
Sneaking through the lecture hall
They crawl across the island.

Thrown away
????? muddied water
Throw ?????
?????

All the young people
Took a Leap of no faith
In a river bend that drowns them all
as much as ?????

?????
????? against the ?????

?????
?????
Understand that only dying is this colossal

Creations yet escape
To find the perfect equilibrium

Like fossils

All the young people
took a leap of no faith WOAH!
All the young cowards
Acting out

All the young cowards

Acting out, for the brave
Forever held in the water
Of their indifference ??????

For a million years
Raise your glass
We will never answer
Where we came from

For a million years
Raise your glass in a cheers
We will never answer
Where we came from, only how we got here

For a million years
Raise your glass
We will never answer
Where we came from

For a million years
Raise your glass
Only how we got here.

Two minutes, and then the lads are in for a surprise!
