It's stifled, it's jealousy
Plots behind my back
Are all in it?
Cloud of black
Cloud of black

North west territories
Wake up pressurized
Every day
In low lying lands

The sight every day
Is cloud of gray
(Take me back to the old east, baby)
For silver eyes
(Cloud of gray)

Lasering my back
Cloud of black
Wake up mesmerized
(Crumbling in the skies)

Wake up mesmerized
Crumbling in the skies

See a cloud of white
See a cloud of white
See a cloud of gray
See a cloud of black

Cloud of white
Cloud of white
And I'll have it in a cold glass please
And not a red hot one

Cloud is gone
Cloud is gone
Cloud of black
Cloud of black
