Everybody told me that I'd better hurry
I should run and hide but I don't want to
No, no, no

They say I must be crazy
Then hide with all their family
I'm so glad they finally left me alone
Yeah

I can hear it coming
It feels just like I'm falling
In a trance and it tastes so good
Come come come, hurricane

It's wilder than the ocean, higher than a mountain
Higher and bigger
It's faster than a car and stronger than a lion
Stronger and bigger

It's gonna come and take me
I need to feel its higher power
And it will make me, it will make me stronger,
Yeah strong, strong, strong!

All the dogs are running, I raise my hands I'm smiling
Please come closer, set me free
Set me free
The sky is spinning round, I'm begging
More I need some more, bring it on
More

Standing in the hurricane, pure energy,
Flying in a chaos, I fly away
Gone gone gone, the hurricane

It's wilder than the ocean, higher than a mountain
Higher and bigger
It's faster than a car and stronger than a lion
Stronger and bigger

It's gonna come and take me

I need to feel its higher power
And it will make me, it will make me stronger,
Yeah strong, strong, strong!

Wilder than the ocean, higher than a mountain
Faster than a car, and stronger than a lion
It's gonna come and take me
I need to feel its higher power
Oh oh oh oh

It's wilder than the ocean, higher than a mountain
Higher and bigger
It's faster than a car and stronger than a lion
Stronger and bigger

It's gonna come and take me
I need to feel its higher power
And it will make me, it will make me stronger,
Yeah strong, strong, strong!
