Here is the love, now it's not there  
Never enough, why must they stare?  
Here is the love, at least for a day  
Runs out like food, when you can't pay  
I'm looking the part, but I'm lacking the heart  
Is there a reason that I shouldn't tell you right from  
The start?

Don't come near me  
I am only human

Here is the love, don't point it at me  
Making me feel the things I should be  
Here is the love  
It's here in the crowd  
(Crowd you're loud)  
Getting too close  
I need to get out

Don't come near me  
I am only human  
Don't you know I'm only human  
Only Human
