(Verse 1)

It's a cold, winters night.
& you don't answer your phone, anymore.
Somethings wrong, it's been hours since we've both
spoke.

(Chorus)

& I hope you are strong, to find your way back home.
As sure as the sun rise again.
It's a wonderful life, if you try.

(Verse 2)

Keep your head, held up high.
& sing this sweet lullaby.
In your head, where I'll be.
To talk to you in my dreams.

(Chorus)

& I hope you are strong, to find your way back home.
As sure as the sun rise again.
It's a wonderful life if you try.

(Verse 3)

It's a cold, winters night.
& you don't answer your phone anymore.
Are you alone, are you out there all by yourself?

(Chorus)

& I hope you are strong, to find your way back home.
As sure as the sun rise again.
It's a wonderful life if you try.
It's a wonderful life
It's a wonderful life
Don't turn your back when things get hard.
It'll pass, always does.
It's a wonderful life, if you try.
