One lie to soften the fall
It shows you never cared at all
The burn it still flickers inside
The fire that will never die

My soul needs to breath
My heart needs to scream

My shivering cry
I'm empty inside

I'll let it go for now
The vengeful curse of karma will come around
The thought of you is a disgusting mess
Tell me the truth, fucking confess
It's taking me so long
I thought I could be more strong
You screamed the deceiving cry
Goodnight sweet baby get ready to die

I'm a nightmare not a dream
I'm the terror at a murder scene
That you see when you close your eyes
Goodnight sweet baby get ready to die
Die, die, die!

It's taking me so long
I thought I could be more strong
You screamed the deceiving cry
Goodnight sweet baby get ready to die
I'll let it go for now
The vengeful curse of karma will come around
The thought of you is a disgusting mess
Tell me the truth, fucking confess
Confess, confess, confess, confess

I got a knife stuck in my back now I see;
I had a beautiful dream you took from me
In the end we got a wonderful prize
I see the beauty in her navy blue eyes
(X2)

We make these lies
(Her blue eyes)
And now what's left?
(Her blue eyes)
You took my heart
(Blue eyes)
And now I'll take this all back

I got a knife stuck in my back now I see;
I had a beautiful dream you took from me
In the end we got a wonderful prize
I see the beauty in her navy blue eyes
(X3)
