

Farewell Rockets

"Stay With Me"

Visit "[Stay With Me](#)" on MotoLyrics.com

When I saw the symphony throughout God's creation
You made me open my eyes through the shaded
pictures

Let it fly to seven heavens
If you're afraid we'll try to run away,
Then we'll fly together

A thousand kinds of nightmares comes into my irony
Won't you stay with me?
Stay with me

In every boy there's a soldier, trying to win back his way
home
And I'm losing sense of your touch now,
Going back to my Creator

Let it scream it's way to heaven
If you're afraid we'll try to run away,
Then we'll fly together

A thousand kinds of nightmares, comes into my irony
Won't you stay with me
Please stay with me

I try to figure out
All the ups and downs we've been through
All the high and low
I can't throw them all away
Asleep or awake
Dead or alive

I need you to know this
This one little thing
That the truth is,
I love you
