Feel the wind beneath your feet
I don't care to see you leave
What you're in for now beats jealousy
I'm gone from this wretched place
Just another face
In & out of my head

Scars run down your arms
To make you feel like something
I'm so lonely & it's killing me
It's tearing me apart

Life is just a game
Says the lady with gold drops filling her hands
Life is just a war
Says the kid who cannot take anymore
Show me paradise where waters fall & fires fly
I can't believe my eyes
You're falling over all the times you lied

Wait for reality
I won't stand & watch you bleed
What you're in for now beats death it seems
Keep me alive I crave the envy
& the rush that caves the empty

Scars run down your arms
To make you feel like something
I'm so lonely & it's killing me
It's tearing me apart

Life is just a game
Says the lady with gold drops filling her hands
Life is just a war
Says the kid who cannot take anymore
Show me paradise where waters fall and fires fly
I can't believe my eyes
You're falling over all the times you lied

Just another soul
Who thinks he's got it all figured out

But...
You're just another sound of a heartbeat
Slowing down
We're breaking ground, we're breaking ground
