

## Proximity "Brighter Days"

Sometimes I can feel my mind daring to release  
Saddened by the hell of mine, refusing to de cease  
Caring not about myself forgetting brighter days  
Further on through the trees other side cannot reach.  
Chorus: I cannot reach  
It's out of my hands  
And now I must decide  
Who I'll be  
And now the pathways blocked  
It sounds like silent defeat  
And now the sun is gone  
I think it's gone with me.  
Bridge: What does it mean  
Object of deceit  
Motive to pass on  
It's circling.
