Through the eyes
Of the justice plan.
Arise the dark from the dawn of man.
A long look through
And you've come to see.
The world's best help
Has come to me.
Chorus 1: Wrong and wrong make right.
What's done is done is justice lies.
Sin is sin is sin is good
Kill white men underneath white hoods
Chorus 2: Hate and hate make love
So says law so follow all
The right to take makes honors will
Cold and dying lying still
(ahhhhhh)
