Always there... in our hearts
Always there... in our hearts, fear of violence and of
death
Always there in our hearts, there is none and there is
fame
Always there in our hearts, there is evil that wants out
Always there in our hearts, there are sorrows and
sadness
Always there in our hearts, there never moving,
standing
Always there in our hearts, there something good that
we can't control
Can't control, can't control, can't control
Always there in our hearts, destroying enemies,
making known
Always there in our hearts, not forgiving them, who are
we?
Always there in our hearts, ?
Always there in our hearts, ? and overwhelmed
Overwhelmed, overwhelmed, overwhelmed,
overwhelmed
