It overtakes me, It overtakes me
It overtakes me...Oh oh oh I
It overtakes me, It Master-Slaves me
It overtakes me...Oh oh oh I

It overtakes me, It overtakes me
It overtakes me... Oh oh oh I
It overtakes me, It Wakes and Bakes me
It overtakes me... Oh oh oh I

You know that it isn't real
You'll disappear in a black hole
You know that it isn't real
Floating out of control... Oh Wow

It overtakes me, It overtakes me
It overtakes me... Oh oh oh I
It overtakes me, It Master-Slaves me
It overtakes me... Oh oh oh I

And I'm there, looking up at the sky
And I'm scared, thinkin' 'bout the way that I
Don't understand anything at all...
And hoe it overtakes me... and I am just so small...
Do I stand a chance??
