We'll let's start now making it clear
Who is the enemy, here
And we'll show them that it's not them
Who is superior

So let's start now making it clear
Who is the enemy, here
And we'll show them that it's not them
Who is superior

It's gonna be bad
It's gonna be wrong
It's gonna feel, good

Marching the hate machines into the sun
Marching the hate machines into the sun

We'll lets start now making it clear
Who is the enemy, here
And we'll show them that it's not them
Who is superior

Marching the hate machines into the sun
Marching the hate machines into the sun
Marching the hate machines into the sun
Marching the hate machines into the sun
