

## The Flaming Lips

### "Turn It On"

Visit "[Turn It On](#)" on MotoLyrics.com

put your face up to the window  
tell me all about your gables  
it feels better when you in it  
if your nervous use the pay phone

put your face where we can see it  
put it on a show on cable  
you can really show it all there  
turn it on when you are able

(CHORUS)

turn it on  
turn it on and all the way up  
turn it on  
in your houses when you wake up  
turn it on  
when you ain't got no relation  
to all those other stations  
turn it on

put your life into a bubble  
we can pick you up on radar  
"hit " a satelite with feeling  
give the people what they paid for

CHORUS
