Like that guy
People dancin in the streets
Spirit is strong and I'm feelin' sweet
So let's go and make some love in central park
We'll be havin' fun after dark hour

Sun's rising on the usa
Let's stay
Let's stay forever... x 2

Now's the time
Forgetting now the livin' life
Gotta see today
Gotta dance all life
It's the place
With everything you're lovin me
Baby take a chance (c'mon)
Let's be free

Sun's rising on the usa
Let's stay
Let's stay forever... x 2

Sun's rising... x3
Sun's rising all over the world... x2
