This day in age, that's what they say
He's getting older, saw it that way
Buy us some time, old friends of mine
Wrote me a story, write me a story

You're settling in, we're coming undone
Felicia, point us to the rapture
You're settling in, we're coming undone
Felicia

Long as we live, well it's a start
Tricks are for children, will tear us apart
This day in age, that's what they say
Back to the soreness, back to the soreness
To oppugn the term, you live what you learn
Commit to decisions, what haven't you heard
We'll follow the streets that ivory lines lead

And try to forget you but I won't forget you

You're settling in, we're coming undone
Felicia, point us to the rapture
You're settling in, we're coming undone
Felicia

Long as we live, well it's a start
Tricks are for children, will tear us apart
Turmoil may turn, you live what you learn
Commit to decisions, commit to decisions
Long as we live, well it's a start
Tricks are for children, will tear us apart
I'll try to forgive but I won't forget you
Long as we live, well it's a start
Tricks are for children, will tear us apart
I'll try to forgive but I won't forget you
