Remains of love are all i know  
Like battle scars that never go  
But there was a time under this sky  
Of an endless summer with you and i

Do you remember how we met  
Springtime on the island of corfu  
I was lost and asked for help  
You were teaching at the local school  
We talked a while and then made plans  
While all the children laughed at me and you  
They could see the way we felt  
Much before either of us knew

Walked together hand in hand  
A stranger from a foreign land but soon  
Mornings turned to afternoons  
And dinners turned to making love to you  
To you

Oh oh oh oh oh  
Mediterranean lady  
Oh oh oh oh oh  
La la la la la la la

Summer days out on the beach  
Cocktails on the patio at noon  
You waved at me from out at sea  
And i considered staying there with you  
I watched the sunlight dancing through your hair  
And like a ghost of history  
I don't know why  
My heart just died  
I realised that it could never be

Circumstance and broken dreams  
Like satellites with laser beams from above  
Tracked me down  
And found us out  
And filled my head  
And make me doubt this love  
This love of ours

Oh oh oh oh oh  
Mediterranean lady  
Oh oh oh oh oh  
You know you're beautiful when you smile

Oh oh oh oh oh  
Mediterranean lady  
Oh oh oh oh oh  
La la la la la la la

Seems like life has played another joke  
This dream of love has left me broke again  
Ah ah ah ah ah  
But what is it for  
Been dumped  
Been hurt  
I've been around  
Maybe i've forgotten how to love  
Ah ah ah ah ah  
Maybe i've given up

Oh oh oh oh oh  
Mediterranean lady  
Oh oh oh oh oh  
La la la la la la la

Oh oh oh oh oh  
Mediterranean lady  
Oh oh oh oh oh  
You know you're beautiful when you smile

Oh oh oh oh oh  
Mediterranean lady  
Oh oh oh oh oh  
You know the ocean is in your eyes

Oh oh oh oh oh  
Mediterranean lady  
Oh oh oh oh oh  
I never meant to make you cry

Oh oh oh oh oh  
Mediterranean lady
