Fear me not but fear my hell
Man made me so I could kill
Eternal hate to men and world
Endless lust burned in my head
Kill with no regret
Piercing, impaling, no judgment
Eternal scream that slowly die
I need to hate in my brain

I eat the human flesh
Backing in your dying breath

One cryptic reason for kill
Cause for I'm insane
Defile and desecrate humanity
Your life is godlessness

I'll sell your life and preach your death
I breach your life
Within my world of hate
Corroding from inside
