Get in, get in, it feels like it's almost time  
Acting like it, you know you'll get the first prize  
Sickness makes us larger than life  
This makes us larger, larger

Here, here's a message for your phone  
Wanted you to know  
This is getting out of hand

Drinking, drinking, I'm feeling oh so slow now  
Waiting, waiting for that feeble last round  
This all makes us smaller than life  
This makes us smaller, smaller

Here, here's a message for your phone  
Wanted you to know (Wanted you to know)  
This is getting out of hand  
Here, here's an idea for your book  
Open up and take a look inside  
It is filled with lies

Be what you wanna be  
When you're doing what you do  
Free what you wanna free  
When you're coming so unglued  
Don't act like you have to  
Speak your thoughts right now

Here, here's a message for your phone  
Wanted you to know (Wanted you to know)  
This is getting out of hand  
Here, here's an idea for your book  
Open up and take a look inside  
It is filled with lies

Here, here's a message for your  
Here, here's an idea for your  
This is getting out  
This is getting out
