

## The Almost "Hands"

With our hands up high we're screamin  
Whoa whoa oh .. whoa whoa oh

I'm not afraid  
To make big mistakes  
To fall flat on my face  
I need to get this looked at  
Need to get this looked at  
I need some time to think  
About what I've done  
Oh, one last thing before I go

With our hands up high we're screaming  
Whoa whoa oh .. whoa whoa oh  
And with our feet  
We stomp a cadence for you  
It's all free and that's real  
It's all free, you said I need  
To accept, I need forget I guess  
I'm glad I got this looked at  
Finally got this looked at  
I'm so glad you came for me  
Get this, get this right  
Before we go

I am the one who needs you  
I am the one who needs you  
I am the one who needs you
