Oh woah oh  
Oh woah oh

I thought I had it beat girl  
I was wrapped up in my own sweet world  
'Til I saw you on the street girl  
Could I walk on by, should I give it a try?

Well you told me not to touch girl (touch girl)  
I was looking for a touch too much  
Maybe I'm pushing my luck girl  
Should I make a play, would you turn me away?

Listen to your heartbeat, listen  
It's gonna tell ya just love me  
Listen to your heartbeat, listen  
It's got something to say

Let love be the leader  
Let it take control of your mind and your body  
It's a leader  
I'm following you

Oh woah oh  
Oh woah oh

I ain't ever gonna break girl  
Or is there something inside that you're trying to hide  
Do you think I'm on the make girl?  
You'd be surprised just what's on my mind

Listen to your heartbeat, listen  
It's gonna tell ya just love me  
Listen to your heartbeat, listen  
It's got something to say

Let love be the leader  
Let it take control of your mind and your body  
It's a leader  
That's why I'm way down in line (way down in line)

Let love be the leader  
I'm following you

Oh woah oh  
Oh woah oh  
Oh woah oh  
Oh woah oh

Let your love lead you on and on  
Cos I'm following you  
Oh woah oh  
Let your love lead you on and on  
I'm following you

Let love be the leader  
Let it take control of your mind and your body  
It's a leader  
That's why I'm way down in line (way down in line)

Love be the leader  
That's why I'm way down in line  
Love be the leader  
I'm following you

Oh woah oh  
I'll be following you  
Oh woah oh  
Oh woah oh  
Oh woah oh  
Oh woah oh
