(Hook)

Always on the grind, always on the goooo,
Addicted to the game, this is all I know
Get your money right before ur steppin to me wrong
As fast as it came, it could be gone

Search high and low, the money is where ull find me
Kttc and 303 are right behind me
Shout out to atr cause so far it's like family
If I say I got the keys... no I don't mean Miami
But I'm hoppin off the top, n fatal1 will never stop
N if I ever get a shot then I will give it all I got
I let my cash talk a lot, See these kats just talk a lot,
The flow is Out of this world like a fuckin astronaut
U could see it in my eyes I'm only focused on the prize
And You could see it in the signs that fatal1 is on the
rise
I always be myself cause these haters in disguise
That's why when they come out it is never a surprise
Every time that I rhyme, perfect 10 just like a dime
Been threw the hardest strife in life but I u bet I still
climb
Till the world is just mine, haters say inside the lines
Fatal one bitch, you could read it on their minds

I never stop movin, if ur snoozing ur losin
Look at what I'm doin, leavin rappers in ruin
These flows unhuman, more distinctive then chumin
And If they have a problem then I bomb um like truman

I'm the youngest in my section who is aimin for
perfection
Abusing all these beats but it aint from neglection
If they comin to me wrong, u could call me correction
And I'm just on some other shit, like I really need to
mention
Every time that I speak I let my mind come unleashed
I'm on my grind in the streets, cause we all got to eat
And u should always do u, let these haters fall with
time
Diamonds are like a ice age but u could see my shine
I am steppin, I am reppin, I do more then just treatin
I am not like these others I will keep the game guessin
If they hatin I'm not stressing, if they talkin I dnt listen
If I came in this world alone, how could n e one be
missin
