I will be, I will be, I will be, I will be... Five second words.
These
Recollection of thoughts; never was the ending and
this is mine. Five second
Words! Bring back these times, forget this time. never
was Forced back into
These circumstances that left traces of your scent.
Forced back into these
Circumstances that left traces of your scent.
.. I would want to sleep the rest
Of my life, rather than you fucking breath,
I would want to sleep the rest of
My life rather than you breathe,
blinded by your love nothings left now it's all
Your fault... Take a breath,
you'll suffer; take a breath, you'll suffer; take a
Breath, you'll suffer; take a breath,
you'll suffer... This is my chance, to leave
This time. Well bring bags that lay still,
with memories. Abby you \$%%%^ \$%#\$%#
\$ this is my chance, to leave this time, don't cry this
time. I don't need
Lip, this was done. And this was my ending. Bring back
these memories that
Couldn't last. Rest of my life don't keep me from
dreaming X4... Rest of my
Life!
