My soul collapses to see you drown,
drowning apart from what has been created.
To radiate your pain has been a problem to this
unspoken solution. My soul
Collapses, my soul collapses.
To see you drown, drowning apart from what has
Been created. It should have been me; it should have
been me she said! It
Should have been me; it should have been me. You're
in a higher place ...
Rochelle don't cry, I know what I must do now. Things
will only get
Better, and your pain will cease to exist.
Rochelle save me, Rochelle Save me.
I feel a tension between us I swear; this family will be
no more. I feel a
Tension between us I swear; this family will be no
more... I feel a tension ...
THERE'S NO SAVING ME!
