"California Calls"

Born on the outskirts of town
Dirty as the ground
Poor as anyone around

I joined a band after school
Played cover songs acted cool
But it's time I find something new

California Calls
I will miss you all
Here I come L.A.
But I'll be back someday

Saved what I could hitched a ride
With my guitar by my side
On that day my mother cried

California Calls
I will miss you all
Here I come L.A.
But I'll be back someday

Call me if you come down my way
I'll be singing my soul away

Safe in the arms of the sun
Land of the stars and the guns
Now my new life has begun

Call me if you come down my way
I'll be singing my soul away

Oh in California 4X

California Calls 4X
